

# The best of mountain living begins at Escala Lodges

From the first moment you arrive at the lodges, the quality will speak to you. From the native mountain stone, to the rough sawn timbers, to the heavy timber trusses, beams and braces – all are reminiscent of great lodges from an earlier era, only updated with today's modern amenities and concierge services.

You are welcomed to Escala as you enter the porte-cochere entrance of the Wasatch main lodge. Experience a mountain resort lobby complete with a magnificent grand staircase, comfortable fireside seating areas and convenient guest check-in desk.

While you check-in, your skis and snowboards are taken for you to your own private-owners locker room.

After your first day on the hill, the owners lounge awaits you with a relaxing and private conversation space. Later, you return to the great outdoors to experience the year-round heated outdoor pool or one of two oversized spas. After, you decide to take in a massage or a quick workout before dinner in the on-site Fitness Center, located in the White Pine Lodge.

Also located in the White Pine Lodge, designed specifically for the children in your life, is the Children's Adventure Center and games area.

Then enjoy a well-deserved dinner together with family and friends in the Wasatch Lodge restaurant and lounge. The best of mountain living truly begins at Escala Lodges!
